SUMMARY

I am a dedicated BCA graduate with hands-on experience in HTML, CSS, Bootstrap, JavaScript, and Django Web Framework. Passionate about creating efficient web solutions, such as my Bakery Project, I am eager to contribute positively in a dynamic work environment while continuously enhancing my skills.

TRAINING

Django Web Development

DIGIPODIUM's, Lucknow

Oct 2023 – Dec 2024

- Throughout my Django web development training, I immersed myself in Python, Django, HTML, CSS, and JavaScript. I acquired proficiency in building dynamic web applications, designing database models, and implementing RESTful APIs.
- I developed expertise in front-end development for crafting responsive user interfaces. My focus on independent project work sharpened my problem-solving skills and deepened my understanding of development practices.

PROJECTS

Bakery Projects

https://github.com/VanshSrivastav21-VS/BakeryProject

We make a Bakery Project using HTML, CSS, Bootstrap and JavaScript. During my 3-month training Django Web Development in DIGIPODIUM's. This project saves the user's details in database system. Any user can order food and book table from home.

Online Resume Builder

VanshSrivastav21-VS/Online_Resume_Builder (github.com)

An online resume builder website built with Django enables users to create professional resumes conveniently. Users can input their personal, educational, and professional details through forms. Django's model-view-template architecture organizes data storage, presentation, and logic seamlessly. Users can save, edit, and download their resumes, with the option to customize templates and styles.
